Re: IFB22-0161 Sanitary Sewer Lining and Manhole Rehabilitation – Amendment One

Atlantic Pipe Services, LLC (hereafter APS) has taken great pleasure in serving the City of Orlando and its' residents during the term of IFB22-0161. It is our sincerest hope to continue the contract and continue to serve the City under the terms of the original contract dated July 2022.

Under rather unfortunate circumstances, APS is forced to request a price increase to continue the services required under IFB22-0161. See Exhibit C for updated pricing requested to be implemented on Amendment 1 to IFB22-0161.

There are two factors that have applied increasing pressure to the costs associated with providing the services required under contract IFB22-0161:

1. A cost increase associated with standard inflation from July 2022 through April 2025 (most recent CPI inflation data). See Exhibit A.
2. Material Cost increases associated with lining materials that far outpace inflation and consumer price records. See Exhibit B.

EXHIBIT A: INFLATION METRICS

From July 2022 through April 2025 there has been an 8.28% inflationary increase in costs.

RE: CIPP MATERIAL PRICE INCREASES FROM 2021 TO 2025

To Whom It May Concern,

I am writing this letter on behalf of Manufactured Technologies Co., LLC, an Azuria Water Solutions company, and our approved installer Atlantic Pipe Services (APS) re: the cost of materials for upcoming cured-in-place-pipe (CIPP) projects.

Per company policy, our material price quotes are valid for a period of 30 days from the date of quote. While we do everything in our power to honor and/or hold pricing, we have this policy in place to protect ourselves against events beyond our control – i.e., force majeure, macro-economic, geopolitical, etc. As such, we reserve the right to requote material pricing for orders older than 30 days.

In preparation for manufacturing the liners associated with ongoing project, we learned that the original quotes are from 2021. As you will recall, due to COVID-19, Global Supply Chain Crisis and record Inflation, the past 3-4 years have been unusually volatile. Unfortunately, our cost of raw materials, labor and fuel all spiked during this time. This letter is to notify you that from the date of the original quote, our costs have increased by approximately 40%.

We trust you understand that we cannot honor quotes from prior years and have therefore provided APS with an updated cost of materials.

If you should have any questions, please contact me at mwetzel@azuria.com.

Best regards,

In conclusion, APS is requesting an 8.28% price increase for all line items on the contract, other than CIPP Lining. For the CIPP Lining line items, APS is requesting a 20% increase to account for the significant material cost increase suffered between July of 2022 through April of 2025.
